8 Transferring data	The data is primarily processed within the EU and the EAA.
outside of the EU and the EEA	If the data is transferred outside of the EU and the EAA, we protect the safety and security of the data by relevant contracts (Privacy Shield system or other arrangement, such as the model clauses of the European Commission).
9 The principles of securing the register	A. Manual content The personnel undertakes to take all action within reason to ensure that the confidential content will not come to be possessed by or known to third persons. This means for example that the content provided by the clients and the documents regarding them are kept in locked premises and cupboards during the consultation process. The controller keeps the information only as long as is needed for the purpose of the register. B. Automatically processed data The data is collected in the system's databases that are secured by firewalls and
	other technical means. The databases are located in locked and guarded premises and can be accessed only by certain pre-determined individuals. The controller keeps the information only as long as is needed for the purpose of the register.
10 Right of access	The client has the right to access the data collected about them in the client database of Ensimetri Oy. The request to access the information should be sent by email to toimisto@ensimetri.fi
11 Right to request rectification of the data	The client has the right to request the rectification, removal or addition of any personal data in the register that it is erroneous, unnecessary, incomplete or obsolete as regards the purpose of processing. Please send the rectification request in writing by emailing toimisto@ensimetri.fi .
12 Other rights relating to the processing of the data	According to article 18 of the Data Protection Regulation of the EU, the data subject has the right to restriction of data processing by written announcement by email to toimisto@ensimetri.fi
